

Under the Microscope

This series is about faith, science and the One who created everything. It's to encourage our fifth and sixth graders to see the value in leaning in, sharing their thoughts, and ultimately, discovering more about God—the One who created everything in the process. The connection between faith and science can feel like a controversial topic at times. The goal in this series isn't to answer every question or even resolve every tension related to the subject.

MEMORY VERSE

"He is before all things, and in Him all things hold together"

Colossians 1:17, NIV

Week One

Genesis 1:1-25

Creation points to a Creator

Week Two

Genesis 1:1, Genesis 1:26-27, Genesis 1:31a

Science and faith can work together to show us more about God.

Week Three

John 9:8-11, John 9:17-19, John 9:24-25

We can have questions and still follow God.

ENGAGE IN EVERYDAY MOMENTS TOGETHER

Morning Time

As your kids start their day, tell them one thing you love about them.

Meal Time

At a meal this week, create a plan to put a nature walk on the family calendar. Decide where you want to go a local park, a mountain trail, a botanical garden, etc. Notice the detail in God's creation and talk about your observations with your kids.

Drive Time

While on the go this week, ask:
“What do you like most about where we live?”

Bed Time

Pray that both you and your student will notice something wonderful God has created every single day.
